1.4 Logging In

Accessing the Login Page

Open your web browser and navigate to the Staff Login page at:

/staff-login

IMPORTANT: The login URL is `/staff-login` — use this exact path.

Figure 01 — PSBT login page showing the login form with temple branding.

Login Fields

Field	Label	Description
Username	Username / Employee ID	Enter your assigned username or employee ID
Password	Password	Enter your password (case-sensitive)

Step-by-Step Login

- 1. Enter your **Username / Employee ID** in the first field.
- 2. Enter your **Password** in the second field.
- 3. Click the **Login** button.
- 4. If successful, you will be redirected to the Dashboard.

Figure 02 — Login form with credentials entered, ready to submit.

Error Messages

Error	Meaning
"Invalid username or password"	Your credentials are incorrect. Check and try again.
"Too many failed login attempts. Please try again later."	Your account is temporarily locked. Wait 15 minutes or contact Administrator.

TIP: Passwords are case-sensitive. Make sure Caps Lock is not accidentally enabled.

1.5 2FA / Verification

If Two-Factor Authentication (2FA) is enabled for your account, you will see an additional verification step after entering your username and password.

2FA Verification Steps

1. After entering your username and password, a verification screen appears.
2. You will see the message: **"Enter the 6-digit code from your authenticator app."**
3. Open your authenticator app (Google Authenticator, Authy, or similar).
4. Find the entry for the temple portal and note the 6-digit code displayed.
5. Enter the 6-digit code in the verification field.
6. Click **Verify & Continue**.

If the Code is Invalid

If you enter an incorrect code, you will see: "Invalid verification code. X attempt(s) remaining."

After multiple failed attempts, contact your Administrator for assistance.

IMPORTANT: The 6-digit code changes every 30 seconds. Enter the current code displayed in your authenticator app.

1.6 Dashboard Overview

After successful login, you will see the Dashboard. The Dashboard provides an overview of temple operations relevant to your role.

1.8 Language / Telugu Support

The PSBT supports both English and Telugu languages.

Switching Language

1. Look for the language toggle button in the header area (EN/తెలుగు).
2. Click to switch between English and Telugu.
3. All labels, buttons, and data display will update to the selected language.

TIP: Telugu names for devotees, poojas, and other data are displayed when available and the language is set to Telugu.

1.9 Basic Working Guidelines

Before Starting Work

1. Log in to the PSBT using your assigned credentials.
2. Verify you are on the correct date (check the date displayed on the screen).
3. For Counter Staff: Ensure you have enough printer paper for receipts.

During Your Shift

1. Complete all required fields before submitting forms.
2. Double-check devotee details before confirming bookings.
3. Always collect payment before clicking **Complete Billing** (Cart Mode) or **Book & Pay** (Form Mode).
4. Print and hand over receipts to devotees immediately after transactions.

End of Shift

1. Review any pending transactions.
2. For Accountants: Complete the Daily Closing process.
3. Log out when leaving your workstation.

1.10 Logging Out

How to Log Out

1. Look at the bottom of the sidebar navigation.
2. Click on your user profile area.
3. Click **Logout**.
4. You will be redirected to the login page.

IMPORTANT: Always log out when leaving your workstation to prevent unauthorized access.

Action	Type of action (Create, Update, Delete, Login)
Entity	What was affected
Details	Additional information

Using Audit Logs

1. Use filters to narrow down the results (date range, user, action type).
2. Review entries to track changes or investigate issues.

TIP: Audit logs cannot be modified or deleted. They provide a permanent record of all system activity.

2.8 Backup

Navigate to **Backup / Restore** to manage database backups.

Figure 23 — Backup and Restore screen.

Creating a Backup

1. Navigate to Backup / Restore.
2. Click **Create Backup**.
3. Wait for the backup to complete.
4. Click **Download** to save the backup file to your computer.

IMPORTANT: Store backup files in a secure location. They contain all temple data.

2.9 Restore

Restoring from Backup

1. Navigate to Backup / Restore.
2. Click **Upload Backup File**.
3. Select a previously downloaded backup file (.json format).
4. The system will validate the backup file.
5. Review the summary showing what will be restored.
6. Confirm the restore operation.

WARNING: Restore performs a controlled insert/update — it never deletes existing data. However, you should still create a fresh backup before restoring.

2.10 Administrative Controls

Day Reopen

If the Daily Closing has been completed but needs to be reopened:

1. Navigate to Daily Closing.
2. Only Administrators can reopen a closed day.
3. Use with caution — reopening affects financial records.

Record Deletion

Certain records may be deleted by Administrators:

- Devotees (if no associated bookings)
- Users (deactivate instead of delete when possible)

WARNING: Deletion is permanent. Deactivate records instead when possible.

2.11 Important Administrator Rules

1. **User Accounts:** Create individual accounts for each staff member. Do not share accounts.
2. **Passwords:** Require staff to use strong passwords. Reset passwords periodically.
3. **Backups:** Create backups regularly (recommended: daily).
4. **Audit Review:** Review audit logs periodically to detect unusual activity.
5. **Role Permissions:** Assign minimum required permissions to each role.
6. **Settings Changes:** Document any settings changes and notify affected staff.

PART 3 — COUNTER STAFF

This section provides detailed operational instructions for Counter Staff, the primary billing operators.

3.1 Counter Staff Overview

As Counter Staff, you are responsible for:

- Creating pooja bookings
- Recording donations
- Recording hundi collections
- Recording auction entries
- Recording annadanam sponsorships
- Recording waste sales
- Printing receipts and tickets for devotees

What You Cannot Do

- Delete or cancel completed transactions
- Access user management or settings
- Access reports (unless specifically granted)

3.2 Opening the Counter

Starting Your Shift

1. Log in to the PSBT with your credentials.
2. Navigate to **Counter / Quick Billing** from the sidebar.
3. Verify the current date is displayed correctly.
4. Ensure your receipt printer is ready.

The screenshot shows the 'Counter Billing' interface of the Sri Shirdi Sai Baba Temple. The header includes the temple's name, logo, and navigation links. The sidebar on the left lists various management options. The main content area is titled 'Counter Billing' and 'One screen for all pooja bookings — daily, ceremonies, festivals, registrations'. It features a 'MOBILE' input field with a dropdown for country code (IN +91) and a 'NAME' input field for the devotee's name. Below these are tabs for 'Select Pooja' (All, Daily, Monthly, Long-Term, Occasion, Festival, Vehicle). A grid of pooja options is displayed, including Sahasranama Archana, Abhishekam, Ashtotharam / Archana, Sri Rama Navami, Karthika Masam Pooja, Devi Navaratri Pooja, and Vishesh Pooja, each with a price. On the right, there is a 'Bill / రసీదు' section for adding daily or vehicle poojas to the bill, a 'Payment Method' section with 'Cash' and 'UPI / QR Code' options, and a 'Total / మొత్తం' section showing ₹ 0. A 'Complete Billing' button is at the bottom right.

Figure 04 — Counter billing screen in empty state, ready for new transactions.

3.3 Finding / Selecting a Devotee

The Counter uses a **phone-first workflow**. You enter the devotee's mobile number first, then their name.

Step-by-Step: Finding a Devotee

1. **Enter Mobile Number:**
 - The country code defaults to +91 (India).
 - Enter the devotee's 10-digit mobile number.

- As you type (after 4+ digits), the system searches for existing devotees.

2. If Devotee Exists:

- A dropdown appears with matching devotees.
- Click on the correct devotee to auto-fill their details (name, gothram, nakshatram).
- A green box shows the selected devotee's name and gothram.

3. If Devotee is New:

- Enter the devotee's name in the Name field.
- The system will create a new devotee record when you complete the booking.

Clearing the Selection

If you need to start over:

- Click the **Clear** button next to the selected devotee's information.

TIP: Always confirm the mobile number with the devotee to avoid creating duplicate records.

3.4 Creating a Pooja Booking

Booking Workflow Summary

1. Enter or select the devotee.
2. Select a pooja category.
3. Select a specific pooja.
4. For Daily/Vehicle poojas: Items are added to cart.
5. For Monthly/Occasion/Festival poojas: A form opens.
6. Select payment method (Cash or UPI).
7. Complete the billing.
8. Print the receipt/ticket.

3.5 Pooja Categories

The Counter displays poojas organized by category using tab buttons:

Category	Description	Mode
All	Shows all poojas	Mixed
Daily	Regular daily poojas	Cart Mode
Monthly	Monthly poojas (e.g., Sai Vratam)	Form Mode
Long-Term	Yearly or Lifetime plans	Form Mode
Occasion	Ceremony poojas (Namakaran, Marriage, etc.)	Form Mode
Festival	Festival-specific poojas	Form Mode
Vehicle	Vehicle blessing poojas	Cart Mode

Category Hints

When you select certain categories, helpful information boxes appear:

- **Monthly:** "Monthly poojas like Sai Vratam are performed on Pournami days. Upcoming: [dates]"

The screenshot shows the 'Counter Billing' interface for the Sri Shirdi Sai Baba Temple. The top header displays the temple name, date (Wed, 23 Sept 2026), time (03:29 PM), and user role (Admin (EO) Administrator). The sidebar on the left lists various management options, with 'Counter Billing' currently selected. The main content area is titled 'Counter Billing' and includes a subtitle 'One screen for all pooja bookings — daily, ceremonies, festivals, registrations'. It features a search bar for existing devotees and a 'Select Pooja' section with tabs for All, Daily, Monthly (selected), Long-Term, Occasion, Festival, and Vehicle. A blue information box states: 'Monthly poojas like Sai Vratam are performed on Pournami days. Upcoming: 26 Sept 2026, 26 Oct 2026, 24 Nov 2026'. Below this, four pooja options are listed with their respective costs: Sahasranama Archana (+ ₹750), Abhishekam (+ ₹1,200), Ashtotharam / Archana (+ ₹500), and Sai Vratam (Pournami) (→ ₹200). The right sidebar shows a 'Bill / బిల్లు' section with a note to add daily poojas or vehicle poojas to the bill. It includes a 'Payment Method' section with options for Cash and UPI / QR Code. The total amount is displayed as ₹ 0, and a 'Complete Billing' button is at the bottom.

3.13 UTR Entry

UTR Validation Rules

Rule	Requirement
Minimum Length	12 characters
Maximum Length	22 characters
Allowed Characters	Alphanumeric only (letters and numbers)

Common UTR Issues

The screenshot displays the 'Counter Billing' interface for the Sri Shirdi Sai Baba Temple. The interface is divided into a sidebar menu on the left and a main content area. The sidebar menu includes options like Dashboard, Counter Billing, Pooja Queue, Verify Ticket, Devotee Management, Pooja Management, Donation Management, Hundi Management, Auction Management, Annadanam Management, Waste Material Sales, Reports, Analytics & Trends, and Daily Closing. The main content area is titled 'Counter Billing' and includes a subtitle 'One screen for all pooja bookings — daily, ceremonies, festivals, registrations'. It features a 'MOBILE #' field with a dropdown menu and a 'NAME #' field. Below these fields is a search bar and a list of pooja options with their respective prices. The 'Payment Method' section shows 'Cash' and 'UPI / QR Code' options. The 'Total / మొత్తం' is displayed as ₹ 0. A 'Complete Billing' button is at the bottom right. An error message is visible in the top right corner: 'No items added. Select a pooja from the left.'

Figure 39 — Error message when UTR is missing for UPI payment.

Error	Cause	Solution
"Enter the UTR / Transaction ID."	UTR field is empty	Ask devotee for the UTR from their payment confirmation
UTR validation failed	UTR too short, too long, or contains special characters	Verify UTR with devotee and enter correctly

TIP: The UTR is usually displayed in the devotee's UPI app payment confirmation screen. Ask them to show you or read it out.

3.14 Confirming the Booking

Final Confirmation

Before clicking Complete Billing or Book & Pay:

1. **Verify Devotee:** Confirm the name and mobile number.
2. **Verify Pooja:** Confirm the correct pooja and plan.
3. **Verify Amount:** Confirm the total amount.
4. **Verify Payment:** Ensure payment has been collected (Cash) or UTR is entered (UPI).

Once confirmed, the booking is created and cannot be easily undone.

3.15 Printing the Receipt / Ticket

After successful booking, a receipt modal appears.

The screenshot displays the 'Booking Details' page for the Sri Shirdi Sai Baba Temple. The page is divided into several sections:

- Header:** Includes the temple name, date (Fri, 18 Sept 2026), time (03:16 PM), and user role (Admin (EO) Administrator).
- Navigation:** A sidebar on the left lists various management options like Dashboard, Counter Billing, Pooja Queue, etc.
- Booking Details:** A central section showing key information:

IF SOMETHING GOES WRONG: If the print dialog doesn't appear, check that pop-ups are allowed in your browser for this site. If printing fails, navigate to Bookings, find the booking, and print from there.

3.16 Monthly / Yearly Duplicate Warning

When booking a Monthly or Yearly plan for a devotee who already has an active plan for the same pooja, a warning appears.

What Happens

1. An amber warning box appears with header: **"Active Plan Exists"**
2. The existing booking details are shown (ticket number, dates, validity).
3. A checkbox appears: **"I have informed the devotee about the existing active plan and they wish to proceed with a new booking."**

What You Must Do

1. **Inform the devotee** that they already have an active plan.
2. **Ask if they still want to proceed** with a new booking.
3. If YES: Check the acknowledgment checkbox and proceed with booking.
4. If NO: Remove the item and select a different pooja or plan.

IMPORTANT: You MUST check the acknowledgment checkbox before the booking button becomes enabled.

3.17 Lifetime Duplicate Restriction

When booking a Lifetime plan for a devotee who already has a Lifetime plan for the same pooja, the booking is **BLOCKED**.

What Happens

1. A red warning box appears with header: "**Lifetime Plan Already Exists**"
2. The existing booking details are shown.
3. A message states: "**Duplicate Lifetime bookings are not allowed. This devotee already has a Lifetime plan for this pooja.**"
4. The booking button remains **DISABLED**.

What You Must Do

1. **Inform the devotee** that they already have a Lifetime plan.
2. **Do not proceed** with the booking — it is not allowed.
3. The devotee can use their existing Lifetime ticket.

IMPORTANT: Unlike Monthly/Yearly duplicates, Lifetime duplicates are completely blocked and cannot be overridden.

3. Click **Save** or **Submit for Verification**.

Expected Result: Waste sale recorded, awaits committee verification.

3.27 Correcting Common Entry Problems

Mobile Number Validation Error

The screenshot displays the 'Counter Billing' interface of the Sri Shirdi Sai Baba Temple. The interface is divided into three main sections: a left sidebar with navigation options, a central form for entering billing details, and a right sidebar for payment and completion.

Left Sidebar: Contains navigation links for Dashboard, Counter Billing (selected), Pooja Queue, Verify Ticket, Devotee Management, Pooja Management, Donation Management, Hundi Management, Auction Management, Annadanam Management, Waste Material Sales, Reports, Analytics & Trends, and Daily Closing. The bottom of the sidebar features the temple's name in Telugu: 'శ్రీ శిర్డి సాయి బాబా ఆలయం'.

Central Form: Titled 'Counter Billing', it includes a subtitle 'One screen for all pooja bookings — daily, ceremonies, festivals, registrations'. It has fields for 'MOBILE *' (with a dropdown for 'IN +91' and a value of '12345') and 'NAME *' (with a value of 'Test'). Below these is a search bar 'Type to search existing devotees' and a table of results:

Select to auto-fill	
Suresh Babu	9876512345
Test	5123456789
Test	0123456789
Test	12345678901234
Test	5123456789
Test	0123456789
Test	12345678901234
QA XCheck Devotee	9000012345

Below the table are buttons for 'Occasion', 'Festival', and 'Vehicle'. The 'Occasion' button is selected, showing 'Abhishekam' and 'Daily' with a price of '+ ₹50'.

Right Sidebar: Contains a 'Bill / బిల్లు' section with the instruction 'Add daily poojas or vehicle poojas to the bill'. It shows 'No items added. Select a pooja from the left.' Below this is a 'Payment Method' section with 'Cash' and 'UPI / QR Code' options. The 'Total / మొత్తం' is shown as '₹ 0'. A 'Complete Billing' button is at the bottom.

Figure 36 — Mobile number validation error message.

Problem: "Invalid Mobile Number. Please Enter Valid Mobile Number"

Possible Reason:

- Mobile number is not 10 digits
- Mobile number doesn't start with 6, 7, 8, or 9

What to Do:

- Verify the correct mobile number with the devotee
- Ensure you enter exactly 10 digits
- Don't include country code in the mobile field

Name Missing Error

Problem: "Enter the devotee / payer name."

What to Do:

- Enter the devotee's name in the Name field
- Name must be at least 2 characters

UTR Missing Error

Problem: "Enter the UTR / Transaction ID."

What to Do:

- Ask the devotee for the UTR from their UPI payment confirmation
- Enter the UTR before completing the transaction

Empty Cart Error

Problem: Complete Billing button is disabled (grayed out)

What to Do:

- Add at least one pooja to the cart before attempting to complete billing

3.28 Counter Staff Restrictions

What You CANNOT Do

Action	Restriction

Cancel Completed Transactions	Not allowed
Access Reports	Not available (unless specifically granted)
Access Settings	Not available
Create Users	Not available
Verify Hundi/Auction/Waste Sales	Not allowed (Committee only)
Modify Master Data	Not available

If You Need to Correct a Transaction

Contact your Administrator. They can review the situation and make corrections if needed.

3.29 End-of-Day Counter Responsibilities

Before Leaving Your Shift

1. Complete All Pending Transactions:

- Ensure all devotees have received their receipts/tickets.
- Do not leave transactions incomplete.

2. **Count Your Cash:**

- Count the cash collected during your shift.
- Note the total for handover to Accountant or next shift.

3. **Review Your Activity:**

- Navigate to Bookings and filter by today.
- Verify all your transactions are recorded correctly.

4. **Handover:**

- Hand over cash to the designated person.
- Report any issues or discrepancies.

5. **Log Out:**

- Click Logout in the sidebar.
- Do not leave your session open.

PART 4 — ACCOUNTANT

4.1 Accountant Overview

As an Accountant, your primary responsibilities are:

- Viewing financial transactions (read-only access)
- Generating reports
- Performing Daily Closing (cash reconciliation)
- Reviewing analytics

What You Cannot Do

- Create bookings or transactions
- Modify any records
- Access user management or settings

4.2 Dashboard

The Accountant Dashboard shows financial metrics relevant to your role.

Figure 37 — Accountant view showing view-only access indicators.

When you access transaction screens (like Counter or Bookings), you will see:

- Blue info bar: **"View-only access — the Accountant role cannot issue receipts."**
- Buttons show **"View Only"** instead of action buttons.

4.3 Daily Closing

Daily Closing is your primary end-of-day responsibility.

Figure 20 — Daily Closing screen showing day summary and reconciliation.

Purpose of Daily Closing

Daily Closing ensures that:

- All transactions are properly recorded
- Cash collected matches expected amounts
- Any variances are documented
- The day is finalized for accounting purposes

4.4 Reviewing Daily Transactions

Before closing the day, review all transactions:

Transaction Summary

The Daily Closing screen shows:

Module	Cash	UPI	Total	Count
Bookings	Amount	Amount	Amount	Count
Donations	Amount	Amount	Amount	Count
Hundi	Amount	-	Amount	Count
Annadanam	Amount	Amount	Amount	Count
Other	Amount	Amount	Amount	Count
Total	Sum	Sum	Sum	Sum

Expected Cash

The system calculates the expected cash based on all cash transactions recorded during the day.

4.5 Closing the Day

Step-by-Step Daily Closing

Purpose: Reconcile and finalize the day's transactions.

Who Can Use It: Accountant, Administrator, Committee

When to Use It: At the end of each business day.

Steps:

1. Navigate to **Daily Closing**.
2. **Review Summary:**
 - Check the transaction counts and amounts.
 - Ensure all modules show correct totals.
3. **Enter Actual Cash:**
 - Enter the physical cash count by denomination:
 - Rs. 2000 notes x [count]
 - Rs. 500 notes x [count]
 - Rs. 200 notes x [count]
 - Rs. 100 notes x [count]
 - Rs. 50 notes x [count]
 - Rs. 20 notes x [count]
 - Rs. 10 notes x [count]
 - Coins
4. **Check Variance:**
 - System calculates: $\text{Variance} = \text{Actual Cash} - \text{Expected Cash}$
 - If variance exists, document the reason.
5. **Click "Close the Day"**
6. **Confirm:**
 - Read the confirmation message: "Once finalised, no further transactions can be recorded"
 - Confirm to proceed.

Expected Result: Day is closed, no further transactions can be recorded for that date.

WARNING: Once a day is closed, only an Administrator can reopen it. Ensure all transactions are complete before closing.

4.6 Financial Reports

Navigate to **Reports** to generate financial reports.

Figure 21 — Reports page showing report categories and options.

Report Categories

Category	Reports Available
Pooja Reports	Daily Booking Summary, Monthly Booking Report, Pooja-wise Collection, Plan-wise Analysis
Donation Reports	Daily Donation Summary, Donation Type Analysis, 80G Certificate Report
Collection Reports	Hundi Summary, Auction Summary, Waste Sales Report, Annadanam Report
General Reports	Daily Revenue Summary, Monthly Revenue, Payment Mode Report

4.7 Report Filters

Each report can be filtered by various criteria:

Filter	Options
Date Range	Custom dates or presets
Category	Filter by category
Payment Mode	Cash, UPI, or All
Status	Filter by status

4.8 Date Presets

Quick date range selection is available:

Preset	Description
Today	Current date only
This Week	Current week
This Month	Current month
Last Month	Previous month
This Year	Current year
Custom Range	Select specific dates

4.9 Exporting Reports

Reports can be exported in multiple formats.

The screenshot displays the 'Reports' section of the Sri Shirdi Sai Baba Temple management system. The interface includes a sidebar with navigation options like Dashboard, Counter Billing, Pooja Queue, and Reports. The main content area shows 'Report Categories' with options for Pooja Reports (8 reports), Donation Reports (7 reports), Collection Reports (6 reports), and General Reports (6 reports). Below this, there's a 'Quick Select' section with buttons for Today, This Week, This Month, Last Month, and This Year. A form allows users to select a date range (From: 01 Sept 2026, To: 23 Sept 2026), a Report Category (Pooja Reports), and a Report Name (Select...). There are 'Reset' and 'Generate' buttons. The 'Reports List' section on the left includes a search bar and a list of reports such as 'Daily Pooja Summary', 'Pooja Booking Register', 'Pooja-wise Collection', 'Plan-wise Collection', 'Poojari Performance', 'Lifetime/Yearly Register', 'Scheduled Poojas', 'Cancelled Bookings Report', and 'Daily Donation Summary'. The 'Daily Pooja Summary' report is expanded, showing a table with columns: Date, Bookings, Completed, Cancelled, Cash (₹), UPI (₹), and Total (₹). The table lists data for dates from 01 Sep 2026 to 08 Sep 2026. To the right of the table, there are 'Export PDF' and 'Export Excel' buttons.

Date	Bookings	Completed	Cancelled	Cash (₹)	UPI (₹)	Total (₹)

4.10 Reviewing Pooja / Donation / Hundi / Auction / Annadanam Data

You can view all transaction data in read-only mode.

The screenshot displays the 'Donation Management' interface for the Sri Shirdi Sai Baba Temple. The header includes the temple name, date (Wed, 23 Sept 2026), time (03:19 PM), and user information (G. Meena, Accountant). The left sidebar lists various modules: Dashboard, Counter Billing, Donation Management (selected), Donations, Hundi Management, Auction Management, Annadanam Management, Waste Material Sales, Reports, Analytics & Trends, and Daily Closing. The main content area shows summary cards for Today's Donations (₹0), This Month Donations (₹56,046), Material Donations (163), and Sponsorships (60). Below these is a search and filter section with fields for Devotee Name / Mobile, From, To, Donation Type, Category, and Payment Mode. The data is sorted by 'Donated On' and displayed in a table with columns: DONATION ID, DEVOTEE, DONATION TYPE, CATEGORY, AMOUNT / MATERIAL, PAYMENT MODE, DONATED ON, and RECEIPT NO. The table lists several cash donations from devotees named 'vishnu' on September 17, 2026.

DONATION ID	DEVOTEE	DONATION TYPE	CATEGORY	AMOUNT / MATERIAL	PAYMENT MODE	DONATED ON	RECEIPT NO.

Rejection Steps

1. Click **"Reject"** button.
2. A dialog opens asking for the rejection reason.
3. Enter a clear reason explaining why the record is being rejected.
4. Click **Confirm** or **Submit**.

6.8 Rejection Reason

Why Rejection Reasons are Required

- Provides documentation of what was wrong
- Allows the creator to correct the issue
- Creates an audit trail
- Ensures accountability

Examples of Rejection Reasons

Reason	Example
Amount mismatch	"Recorded Rs. 5000 but physical count shows Rs. 4800"
Missing items	"Jewellery item not included in recording"
Incorrect details	"Winner name does not match payment receipt"
Incomplete record	"Committee member signatures missing"

6.9 Important Verification Rules

1. **Never verify your own submissions.** This is blocked by the system.
2. **Always verify physical items** before approving.
3. **Document all rejections** with clear reasons.
4. **Verify promptly** to avoid delays in processing.
5. **Review all details** before making a decision.

Calendar Features

- **Month View:** See bookings across the month.
- **Date Selection:** Click a date to see that day's bookings.
- **Event Colors:** Different colors for different pooja types.

7.6 Pournami / Monthly Calendar Information

The screenshot displays the 'Counter Billing' interface for the Sri Shirdi Sai Baba Temple. The header includes the temple's name, logo, and navigation links. The main content area is titled 'Counter Billing' and provides instructions for daily, ceremonies, festivals, and registrations. It features a search bar for existing devotees and a 'Select Pooja' section with tabs for All, Daily, Monthly, Long-Term, Occasion, Festival, and Vehicle. The 'Monthly' tab is selected, showing a list of monthly poojas with their respective costs. A notification banner indicates that monthly poojas like Sai Vratam are performed on Pournami days, with upcoming dates of 26 Sept 2026 and 26 Oct 2026. The right sidebar contains a 'Bill / రసీదు' section for adding daily or vehicle poojas, a 'Payment Method' section with options for Cash and UPI / QR Code, and a 'Total / మొత్తం' section showing ₹ 0. A 'Complete Billing' button is at the bottom.

Pooja Name	Cost
Sahasranama Archana Monthly	+ ₹750
Abhishekam Monthly	+ ₹1,200
Ashtotharam / Archana Monthly	+ ₹500
Sai Vratam (Pournami) Monthly	→ ₹200

Figure 40 — Calendar showing Pournami (full moon) dates.

Pournami Dates

- Pournami dates are automatically calculated.
- Monthly poojas (like Sai Vratam) are scheduled on Pournami days.
- The Counter screen shows upcoming Pournami dates when Monthly category is selected.

7.7 Analytics

Navigate to **Analytics** to view visual dashboards.

PART 8 — BACKUP, RESTORE AND SYSTEM ADMINISTRATION

8.1 Backup

Figure 23 — Backup and Restore screen.

Who Can Create Backups

Only **Administrators** can create and manage backups.

8.2 Creating a Backup

Step-by-Step

1. Navigate to **Backup / Restore**.
2. Click **Create Backup**.
3. Wait for the backup to complete (may take a few moments).
4. Click **Download** to save the backup file.
5. Store the file in a secure location.

Backup File

- Format: JSON (.json)
- Contains: All application data
- Security: Store securely, contains sensitive information

8.3 Restore

Restore allows you to recover data from a previous backup.

8.4 Uploading a Backup File

Step-by-Step

1. Navigate to **Backup / Restore**.
 2. Click **Upload Backup File**.
 3. Select a backup file (.json) from your computer.
 4. Wait for validation to complete.
 5. Review the backup summary (what will be restored).
 6. Confirm the restore operation.
-

8.5 Restore Safety

Important Information

- **Restore performs a controlled insert/update — it never deletes existing data.**
- Before restoring, create a fresh backup of current data.
- Restore should only be performed when necessary.

WARNING: Only perform restores when absolutely necessary. Create a backup of current data first.

8.6 Audit Trail

Figure 32 — Audit Trail showing system activity log.

What is Logged

Event	Recorded
Login/Logout	User, timestamp
Record Creation	User, entity, details
Record Update	User, entity, old/new values
Record Deletion	User, entity, details
Settings Changes	User, changes made
Verification	User, entity verified

Audit Trail Rules

- Cannot be modified or deleted
- Permanent record of all activity
- Use for accountability and investigation

8.7 Administrative Precautions

Regular Maintenance

Task	Frequency
Create Backup	Daily (recommended)
Review Audit Trail	Weekly
Review User Accounts	Monthly
Password Resets	As needed

Security Best Practices

1. **Individual Accounts:** Each staff member should have their own account.
2. **Strong Passwords:** Require passwords with letters and numbers.
3. **Logout When Leaving:** Always log out when leaving workstation.
4. **Minimum Access:** Grant only necessary permissions.
5. **Regular Review:** Periodically review user accounts and access.

PART 9 — TROUBLESHOOTING

Cannot Log In

Problem

Cannot access the system — login fails.

Possible Reasons

1. Incorrect username or password
2. Account is locked (too many failed attempts)
3. Account is inactive
4. Network/server issue

What to Do

1. Check that username and password are correct (case-sensitive).
2. If you see "Too many failed login attempts", wait 15 minutes.
3. Contact Administrator to check account status.
4. Check your network connection.

Invalid Credentials

Problem

"Invalid username or password" error message.

Possible Reason

Username or password is incorrect.

What to Do

1. Verify you are entering the correct username.
 2. Check Caps Lock is not accidentally enabled.
 3. Passwords are case-sensitive — enter exactly as given.
 4. If forgotten, contact Administrator for password reset.
-

2FA Issue

Problem

Cannot complete 2FA verification.

Possible Reasons

1. Code expired (codes change every 30 seconds)
2. Authenticator app shows wrong code
3. Time on your device is not synchronized

What to Do

1. Wait for a new code to appear in your authenticator app.
 2. Enter the new code quickly.
 3. Check that your device's time is correct.
 4. Contact Administrator if problem persists.
-

Missing UTR

Problem

"Enter the UTR / Transaction ID" error when completing UPI payment.

Possible Reason

UTR field is empty but UPI payment method is selected.

What to Do

1. Ask the devotee to show their UPI payment confirmation.

2. Find the UTR/Transaction ID on their screen.
 3. Enter the UTR in the field.
 4. Then complete the billing.
-

Invalid UTR

Problem

UTR validation fails.

Possible Reasons

1. UTR is too short (less than 12 characters)
2. UTR is too long (more than 22 characters)
3. UTR contains special characters

What to Do

1. Verify the UTR with the devotee.
 2. Ensure you copy the complete UTR (12-22 characters).
 3. UTR should contain only letters and numbers.
-

Invalid Mobile Number

Problem

"Invalid Mobile Number. Please Enter Valid Mobile Number"

Possible Reason

Mobile number is not in correct format.

What to Do

1. Enter exactly 10 digits.
 2. Number should start with 6, 7, 8, or 9.
 3. Do not include country code in the mobile field.
-

Required Field Missing

Problem

Cannot submit form — required fields highlighted.

What to Do

1. Look for fields marked with asterisk (*).

2. Fill in all required fields.
 3. Ensure values meet validation requirements (min length, format).
-

Payment Issue

Problem

Transaction fails during payment processing.

What to Do

1. Check your network connection.
 2. Do not refresh or close the browser.
 3. Try again after a moment.
 4. If problem persists, contact Administrator.
-

Receipt Printing Issue

Problem

Receipt doesn't print or print dialog doesn't appear.

Possible Reasons

1. Pop-up blocker preventing print dialog
2. Printer not connected
3. Browser issue

What to Do

1. Allow pop-ups for the application in your browser settings.
 2. Check printer connection and paper.
 3. Try a different browser if needed.
 4. Navigate to Bookings, find the booking, and print from there.
-

Network/Server Error

Problem

"Couldn't load records — check your connection and retry."

Possible Reasons

1. Internet connection lost
2. Server temporarily unavailable
3. Network timeout

What to Do

1. Check your internet connection.
 2. Click the **Retry** button.
 3. Wait a moment and try again.
 4. Contact Administrator if problem persists.
-

Invalid Ticket

Problem

Ticket verification fails — ticket is invalid.

Possible Reasons

1. Already performed today
2. Ticket expired
3. Booking cancelled
4. All performances used
5. Ticket number incorrect

What to Do

1. Check the reason shown in the amber banner.
 2. Explain the reason to the devotee.
 3. Refer devotee to Counter for assistance.
-

Duplicate Booking Warning

Problem

Warning appears about existing active plan.

What to Do

1. Inform the devotee about their existing plan.
 2. If they want to proceed: Check the acknowledgment box.
 3. If they don't want to proceed: Remove the item.
-

Booking Restriction (Lifetime Duplicate)

Problem

Cannot book — Lifetime plan already exists.

What to Do

1. Inform devotee they have an existing Lifetime plan.
 2. They should use their existing ticket.
 3. Cannot proceed with new Lifetime booking.
-

Report Export Issue

Problem

Cannot export report to Excel or PDF.

Possible Reasons

1. Downloads blocked in browser
2. Disk space issue
3. File in use

What to Do

1. Check browser settings — allow downloads.
 2. Check available disk space.
 3. Close any open files with same name.
 4. Try again.
-

Permission / Access Denied

Problem

Cannot access a module or perform an action.

Possible Reason

Your role doesn't have permission for this action.

What to Do

1. Check with your Administrator about your role permissions.
 2. If you need access, request it through proper channels.
-

When to Contact Administrator

Contact your Administrator when:

Issue	Action
Account locked	Administrator can unlock
Password forgotten	Administrator can reset
Need additional access	Administrator can adjust permissions
Transaction correction needed	Administrator can review
System errors persist	Administrator can investigate
